

NCBVA CERTIFICATIONS

CONCRETE SPECIALISTS

EXPERIENCED CONCRETE SPECIALISTS

Patrick Lewandowski: Patrick has 31 years of industry experience and education in civil engineering construction materials working directly in the cement, ready-mix, governmental specification, mining, tunneling, precast, and macro-synthetic fiber industries.

Mike Barry: Mike has worked in the concrete industry since 1978, in QC and operations. He is certified as concrete field technician, flatwork finisher, pervious concrete installation technician, compressive strength testing, windsor probe testing, and nuclear density testing.

SAMPLE CERTIFICATION PROCESS

- 8:00 am – Introduction to the Concrete Specialist and the NCBVA certification program.
- 8:30 am – Begin review of operations.
- 9:30 am – Perform center load testing.
- 10:30 am – Test and inspect vault molds and all materials used for the concrete operations (including admixtures and mix design).
- 11:00 am – Prepare compressive strength cylinders for testing.
- 12:00 pm – Review findings. Make recommendations. Address any concerns.
- 12:30 pm – Depart.

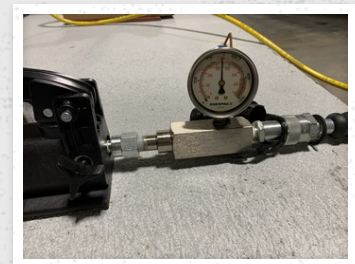

Ready to schedule your visit? email info@ncbva.org

NCBVA Concrete Specialist Interview

HAS YOUR CERTIFICATION EXPIRED? GET READY FOR A VISIT

NCBVA certification is renewable every 5 years. The schedule for certification is based on certification date and geographic location. View the full [member directory](#) along with each plant's certification status.

- All certifications will be conducted by a concrete specialist.
- Areas observed during a certification visit include maintenance and cleanliness, production, employee safety, and concrete load testing (performed by third-party testing facility).
- In order to be added to the certification schedule, your plant must be an active member of the NCBVA (up to date with dues).
- **Plant certifications are \$1500 per site.** For Doric plants, fees are direct billed to Doric. As always, each plant is responsible for their cylinder testing fee of \$125.

[Let us know](#) if you are interested in becoming an NCBVA Certified Plant or renewing your certification.

IS YOUR PLANT ALREADY NCBVA CERTIFIED? LET YOUR CUSTOMERS KNOW ABOUT IT!

Let your customers know that your plant has been through the thorough NCBVA certification process and passed. [Request](#) the new **Certified Plant logo** now and add it to your website, trucks and/or other marketing materials.

100% VACCINATED

Our concrete specialists are 100% vaccinated for Covid-19 and follow all CDC guidelines.

CERTIFICATION CANCELLATION POLICY

More than 2 weeks from visit:
No penalty

2 weeks prior from visit :
\$350 penalty

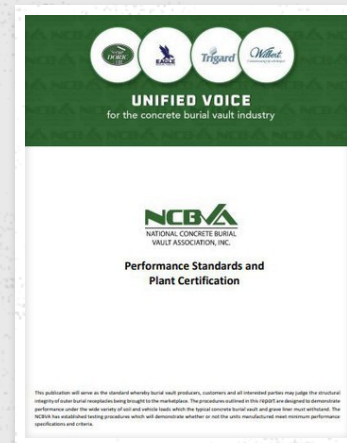

Day before visit:
\$500 penalty

Day of visit:
\$600 penalty + rescheduling charge

NEW STANDARDS MANUAL

NCBVA recognizes its leadership role in funeral service to continually research and develop, then specify and promote, minimum performance standards for the burial vault industry. The latest revision of the [NCBVA Performance Standards and Plant Certification Manual](#) is available at NCBVA.org and includes cosmetic changes as well as:

- Clarification of burial vault versus liner
- Update of links and resource docs
- Removal of disinterment items
- Removal of scoring mechanism for certification visits

NOT A MEMBER YET? HERE IS WHY YOU SHOULD JOIN:

- 3 articles/year on a trending legal topic
- 3 Q&A conference calls with NCBVA legal counsel
- Ready-to-use legal templates such as:
 - the disinterment legal form
 - the social media policy sample
 - the employee handbook including a write-up of the 10 key elements
 - the job application form
- Access to NCBVA plant certification program with a concrete specialist
- Quarterly email updates on industry news and education
- Unified voice of the industry to address industry regulations
